

Sunrise of North Macedonia

Sunrise of North Macedonia Vranec

Red Semidry

This wine was made from the Vranec variety grapes that originate in the sunny region of Tikves. Gallant and distinctive, red, semidry Sunrise of North Macedonia stands out for its delightfully intensive, ruby colour and reveals robust flavours of black currant and blueberry with slight background hints of caramel and chocolate. Unique tasting sensations are topped with generous and full mouth with lasting and tannic finish. At its best when paired with a variety of red meat-based foods and/or cheese.
